Case No. 05-CV-1114 JW  
MDL No. 1665

**[PROPOSED] ORDER GRANTING  
THE SATELLITE DEFENDANTS'  
MOTION FOR SUMMARY  
JUDGMENT OF INVALIDITY OF  
THE '992, '863, AND '720 PATENTS**

Date: TBD  
Time: TBD  
Courtroom: 8, 4th Floor  
Judge: Hon. James Ware

1 Defendants EchoStar Satellite LLC, EchoStar Technologies Corp., and The DIRECTV  
2 Group, Inc. (the “Satellite Defendants”) have moved for summary judgment of invalidity  
3 regarding the claims asserted against them by Plaintiff Acacia Media Technologies Corporation.  
4 Specifically, Acacia continues to assert U.S. Pat. No. 5,132,992 Claims 41 and 45; U.S. Pat. No.  
5 5,550,863 Claims 17-19; and U.S. Pat. No. 6,002,720 Claim 11 against the Satellite Defendants.  
6 Upon consideration of the papers filed in support of and in opposition to the Satellite Defendants’  
7 motion for summary judgment, the arguments of counsel, and the relevant papers and pleadings  
8 in this action, for good cause this Court GRANTS the Satellite Defendants’ invalidity motion.

9  
10 **IT IS ORDERED THAT:**

11 The Court **GRANTS** the Satellite Defendants’ Motion For Summary Judgment of  
12 Invalidity of the ’992, ’863, And ’720 Patents. The Satellite Defendants have demonstrated that  
13 there are no disputed issues of material fact regarding the validity of the above claims and that  
14 they are entitled to judgment as a matter of law that each of these claims fails the written  
15 description and enablement requirements of 35 U.S.C. § 112, ¶ 1 for the following reasons:

16 1. Claims 41 and 45 of the ’992 patent, 17-19 of the ’863 patent, and 11 of the ’720  
17 patent fail the written description requirement because there is insufficient description of a  
18 method of transmitting information that is not responsive to user requests;

19 2. Claims 41 and 45 of the ’992 patent fail the written description requirement because  
20 there is insufficient description of “storing items having information in a source material library”;

21 3. Claims 41 and 45 of the ’992 patent fail the written description and enablement  
22 requirements because there is insufficient description of “retrieving the information in the items  
23 from the source material library”;

24 4. Claims 17-19 of the ’863 patent fail the written description and enablement  
25 requirements because there is insufficient description of “inputting an item . . . into the  
26 transmission system”; and

27 5. Claim 11 of the ’720 patent fails the written description and enablement requirements  
28 because there is insufficient description of a “subscriber selectable receiving station”.

1           Within 30 days from the date of this order, the parties are **DIRECTED** to submit a joint  
2 case management statement regarding further scheduling in this case.
